Select Stellar Model

Basic Course:

User will have the option to select the <u>Stellar model</u> if they want to view the internal structure of the <u>Celestial body</u> they have created. This feature will allow the users to visualize the properties of internal structure of a <u>celestial body</u> such as <u>thermodynamic</u> input and the lighting.

Alternate Courses:

The user picks up the Stellar Model which does not exist: If the user picks up the Stellar Model which does not exist then the error message will pop up on the screen.
